

Why Cedar Wood for a Riser?

Cedar wood is an excellent choice for a truck camper riser due to its unique properties and advantages:

Advantages of Cedar Wood

- 1.Lightweight:** Cedar is a relatively light wood, making it easier to handle and less burdensome on your vehicle.
- 2.Durability:** Cedar is naturally resistant to rot, decay, and insect damage, ensuring longevity even in varying weather conditions.
- 3.Aesthetic Appeal:** Cedar has a beautiful, rich color and grain pattern that adds a touch of natural elegance.
- 4.Aroma:** The pleasant scent of cedar is a natural deterrent to many insects and can add a nice touch to your camper.
- 5.Insulation:** Cedar has good insulating properties, helping to regulate the temperature within your camper.
- 6.Sustainability:** Many cedar species are sustainably harvested, making it an environmentally friendly choice.

Considerations

While cedar has many advantages, it's also essential to consider its cost and availability in your area. Cedar can be more expensive compared to other woods, but its benefits often justify the investment.
